Cosmetic Feature

The use of dermal fillers to rejuvenate the facial appearance has skyrocketed in recent years. This is no surprise to the team here at [Aesthetic Dermatology in Bala Cynwyd](#), who understands that everyone wants to look their best but not all are ready for surgical intervention such as a facelift. [Dermal fillers](#) such as Juvederm Voluma, Vollure, and Volbella address various signs of aging without incisions, downtime or the inherent risks that come with surgery. Treatment with dermal fillers is quick and easy; most sessions last no longer than 30 minutes in our office! Dermal fillers work by adding volume to facial features, restoring youthful fullness while simultaneously filling in lines and wrinkles. Results with dermal fillers

are temporary but can easily be maintained with treatment sessions.

What Can Dermal Fillers Address?

- Fine lines around the nose and mouth, known as nasolabial folds
- "Crow's feet," or lines that form on the outer corner of the eyes
- Deep furrows and creases on the forehead
- Hollowed out or sunken cheeks
- Vertical bands on the neck
- Naturally thin or aged lips

The best dermal filler treatment for you will depend on your specific aesthetic needs and goals. Dr. Lynn Klein can meet with you personally to evaluate your facial features, discuss your cosmetic concerns and design a treatment plan that achieves the most natural-looking, beautiful results.

Lose the Fat - and Earn Points!

Are you embarrassed by the appearance unwanted fat? Here's a brilliant way to lose the fat bulge while saving money. Brilliant Distinctions is the only rewards program that gives you points toward instant savings on qualifying Allergan aesthetic treatments and products, including Kybella and CoolSculpting.

CoolSculpting is a non-surgical alternative to liposuction that freezes unwanted fat from the abdomen, thighs, back and buttocks. Treatment is quick and painless. Results with CoolSculpting are noticeable as quickly as three weeks after treatment!

Kybella is a new and exciting injectable treatment that eliminates submental fat, also known as a double chin. Treatment is virtually painless, downtime is minimal and results are permanent!

Here's how you can slim down and earn points:

- Become a Brilliant Distinctions member (it's free!).
- Earn points with every Allergan treatment or product you purchase.
- Redeem points for savings on your next treatment or product.

Aesthetic Dermatology offers several Allergan products including:

- Kybella
- CoolSculpting
- Botox
- Juvederm
- Latisse
- SkinMedica

Medical Feature

Cryosurgery for Age Spots, Skin Growths and Skin Cancer

At Aesthetic Dermatology, our board certified dermatologist Dr. Daniel Parish stays abreast of the latest technology and methods in skin care. In cases of age spots and skin growths (e.g., warts and skin tags), Dr. Parish has found that cryosurgery is quite effective.

Cryosurgery uses frozen nitrogen to destroy abnormal tissue. The skin growth is frozen and then allowed to thaw, causing maximum destruction to targeted skin cells. Early stages of basal and squamous cell carcinoma can also be treated with cryosurgery. Post-op side effects are minimal and temporary and the procedure is well tolerated by most patients.

To learn more about cryosurgery or to schedule a skin cancer

screening, speak to our board certified dermatologist Dr. Daniel Parish. Schedule a consultation with Dr. Parish today.

If you need help getting healthy, beautiful skin, hair and nails, our board certified dermatologist board certified dermatologist, Dr. Daniel Parish. can help. Schedule a consultation with Dr. Parish to discuss your dermatology needs.
